### POSTGRADUATE

Systems Programming  
Operating Systems  
Information Security & Networking  
Industrial Sociology  
Project Management  
Verification & Testing

## INTERESTS

### PROFESSIONAL

IT-security • cryptography  
embedded systems • virtualization  
operating systems • different distributions  
emulation • various package managers  
computational intelligence

### PERSONAL

Robots:

Whenever i see a robot on the street i have to run there and yell: *Look! It's a robot!* We can do this together if you like.

#### No sports attitude

The only sport i do is clicking, doubleclicking and sometimes tripleclicking accidentally. I need a protein shake then.

#### Being smart:

Coming straight from my mothers loins, i am as smart as she is. And she is super-duper smart.

### 2017: Introduction to Information Security

But I must explain to you how all this mistaken idea of denouncing pleasure and praising pain was born and I will give you a complete account of the system, and expound the actual teachings of the great explorer of the truth, the master-builder of human happiness. No one rejects, dislikes, or avoids pleasure itself, because it is pleasure, but because those who do not know how to pursue pleasure rationally encounter consequences that are extremely painful.

### 2017: Distributed Systems

At vero eos et accusamus et iusto odio dignissimos ducimus qui blanditiis praesentium voluptatum deleniti atque corrupti quos dolores et quas molestias excepturi sint occaecati cupiditate non provident, similique sunt in culpa qui officia deserunt mollitia animi, id est laborum et dolorum fuga.

### 2016: Operating Systems

On the other hand, we denounce with righteous indignation and dislike men who are so beguiled and demoralized by the charms of pleasure of the moment, so blinded by desire, that they cannot foresee the pain and trouble that are bound to ensue; and equal blame belongs to those who fail in their duty through weakness of will, which is the same as saying through shrinking from toil and pain.
